COLLECTION

GOOD TO GO.

Let go of everything, get changed and go. This moment starts with you. You are the one that gets on that bike or ties the laces. For yourself. For the moment. For friendship. For the love of the sport. We are there too. You don't have to worry about that. We offer comfort so that you can get into your comfort zone. Headwind, tailwind or side wind, together we get into the flow. We make sure you can enjoy yourself. Don't forget to enjoy it. Enjoy every mile. Every bump in the road or pebble in the path. All the beautiful distances we cover together. The comfortable moments, but also the moments of setback and going to extremes. The sounds along the way, the smells of the season and the moments of success. Wherever you go and whatever that success may be.

We enjoy the acceleration, going to the max, stopping on the way or that well-deserved drink afterwards. We enjoy the company or that moment for ourselves. We discover new places, run into old acquaintances and often encounter ourselves. And that has motivated us to continue for almost half a century - since former yellow jersey wearer Rini Wagtmans decided that cycling clothes should be more comfortable. We believe in the magic of distance. The rhythm of the ride. The anticipation of the next round and looking back on the previous run. On the road and beyond. As enthusiasts and professionals. We enjoy the big and small moments. We enjoy together.

*ONE THING IS CERTAIN: WE WILL BE GOOD TO GO AGAIN
TOMORROW. AND WE WILL ENJOY EVERY SECOND OF IT.*

PHOTOCHROMATIC

ALWAYS ULTIMATE VISUAL COMFORT AND PERFECT VIEW.

INTERCHANGEABLE LENSES

Easily take the lenses out of the frame and simply click in a pair of alternate lenses. In that way, the glasses are suitable for every weather situation.

ADJUSTABLE NOSEPIECE

The nosepiece can be shaped to the nose contours. In that way, the glasses are comfortable for everyone.

ADJUSTABLE TEMPLE TIPS

The hypoallergenic rubber temple tips can be shaped to the contours of the head. In that way, the glasses are comfortable for everyone.

TR90 LIGHTWEIGHT MATERIAL

TR90 is a lightweight and flexible material. Thereby, the glasses are bendable and have a high fracture resistance. TR90 safe guards quality and sustainability.

POLARIZED LENSES

Polarized lenses are a great option for anyone who spends time outdoors. If you're working out, especially when doing high-glare activities around water or snow, polarized lenses help reduce glare and provide additional clarity while keeping your eyes protected.

CYLINDRICAL SPHERICAL

What's the difference between Cylindrical Lenses and Spherical Lenses?

Spherical lenses curve horizontally and vertically around your face, giving the goggles a bubbled look. Cylindrical lenses curve horizontally while remaining flat vertically, giving a flat look.

Spherical Lenses

Cylindrical Lenses

SPECIFICATIONS DESCRIPTION

CLEAR LENSES

These transparent lenses allow nearly every ray of light- Wear them at night to keep wind, bugs and dirt out of your eyes.

Best for night riding.

Light transmission 90-95%

YELLOW LENSES

The sunny hue increases clarity and can brighten colors. The tint helps objects pop against dark or gray backgrounds.

Best for stormy weather.

Light transmission 70-90%

SMOKE LENSES

This darker, neutral shade won't distort colors, which means you can discern red lights from yellow ones. But it enhances contrast less than colored tints. Best for sunny days.

Light transmission 15-18%

REVO LENSES

REVO is a contrast increasing coating which provides mirror lenses. Because they make objects appear darker, mirrored coatings often are paired with lighter shades.

Best for glaring sun.

Light transmission adds 3-7%

UV PROTECTION

All frames are engineered with a protectant in the frame material that preserves the color pigment to reduce fading, while offering high resistance to UV radiation and stress cracking.

LADIES

Every body is built differently. At Rogelli, we strive to find suitable clothing. Rogelli uses three kinds of fits, namely comfort, race and pro.

COMFORT FIT RECREATIVE

The Comfort fit is a regular fit that is very comfortable and offers you optimal freedom of movement.

RACE FIT COMPETITIVE

The Race fit is a slim fit that fits perfectly to the body, making the cycling shirt very comfortable and flexible.

PRO FIT PROFESSIONAL

The Pro fit feels like a second skin to the body. This ensures minimal friction and provides an aerodynamic effect.
